

(ASA), a fellow of the American Association for the Advancement of Science (AAAS), Soil Science Society of America (SSSA), Crop Science Society of America (CSSA), Indian Society of Soil Science (ISSS) and National Academy of Agricultural Sciences in India, (NAAS).

He is the recipient of awards for International Services in Agronomy, Crop Science and Soil science in the United States.....a distinction very first scientist received in the USA.

Dr. De Datta has advised a total of 77 Master's and Ph.D. students in his career including myself. He has published 366 journal articles, technical bulletins, and other reports in the areas of soil science, soil and crop management, and weed science. He has served on numerous boards, societies, and committees.

He has been an active member of the American Society of Agronomy (ASA), Soil Science Society of America (SSSA) since 1963 and a member of the Crop Science Society of America (CSSA) for over 15 years, served as an A-6 Chair (International Agronomy division of ASA) and organized symposia and was a member of the Agronomic Science Foundation (ASF) board serving the Tri societies of America (ASA, SSSA and CSSA) for two terms.

Dr. De Datta is retired and currently lives in Davis, California in the United States.

It has been my great privilege to know him and write this blog.

**Note:** The complete report of the results were published by the Agronomy Journal, Vol.60, Nov.-Dec. 1968, pages 643–647
